Read:

After using postman if u get any error response, please verify all the parameters (form parameters, header parameters, url parameters etc) using wireshark.

The Postman Rest Client is a very popular and easy to use HTTP Request. So u can Creating and sending http requests by postman.

Installation :

Requirements:

1. Google chrome browser

Installation process :

1. add two plug-in postman or
2. go https://chrome.google.com/webstore/detail/postman-rest-client/fdmmgilgnpjigdojopjoooidkmcomcm?utm_source=chrome-app-launcher-info-dialog
3. https://chrome.google.com/webstore/detail/postman-launcher/igofndmnioofoabmmpfonmdnhgchoka?utm_source=chrome-app-launcher-info-dialog
4. just click add

Now open postman and sent request as u want. If u want, then follow the given example:

POST REQUEST :

Example 1 :

Normal Basic Auth Digest Auth OAuth 1.0 No environment ▼

http://image.ringid.com/stream/ThumbImageHandler POST ▼
